KC-117 is a concentrated alkaline builder and water conditioner. It is designed for use as laundry detergent booster.

DIRECTIONS FOR USE: Dilution rate will depend on fabric to be cleaned, water quality, and degree and type of soil, usually 11-22 ounces of KC-117 per 100 lbs laundry. Adjust the amount as needed for smaller or heavily soiled loads. The final operation of the laundry cycle must be potable water rinse sufficient to remove all added substances from the laundered fabric.
