

## TECHNICAL DATA

### PC-980

#### Description:

PC-980 is mineral white oil for use as a lubricant and rust preventative for food processing machinery. PC-980 is of the highest degree of purity and meets FDA 21 CFR 172.878 and 21 CFR 178.360(a) for direct food contact.

#### Physical Properties:

Appearance – Colorless viscous liquid

Odor – Odorless

pH - NAP

Flash Point - Open cup: 177°C (351°F)

Pour Point - 10°F (-12°C)

Density - 7.09 pounds per gallon

#### Directions for Use:

PC-980 can be sprayed onto clean food processing equipment prior to production to provide rust and corrosion control. Excess should be removed prior to production.

#### Safety:

Do not store in food processing or food storage areas. Do not store with strong oxidizing agents. Keep out of reach of children.

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Avoid water contamination and extreme temperatures to minimize product degradation. Do not store at temperatures above 120°F or in direct sunlight for extended periods of time. Keep container closed.
