

TECHNICAL DATA

PC-991

Description:

PC-991 is a premium trolley and chain lubricant, effective in a variety of slaughter and processing environments. PC-991 is a blend of petroleum oils, plant derived oils, and additives that provide low drip, enhanced rust protection, excellent lubrication and long life.

Physical Properties:

Appearance – Pale yellow viscous liquid

Odor – Odorless

pH – NAP

Flash Point - >200°F

Density – 7.26 pounds per gallon

Directions for Use:

PC-991 can be applied by spray or dip method.

Spray method: Spray onto clean trolleys and hooks for lubrication and rust protection. Blow off excess oil or let drip for sufficient amount of time to avoid dripping onto meat product.

Dip method: Float ¼-3 inches of oil on top of hot water (160-180°F). Dip clean trolleys and hooks in oil to completely cover them with oil. Blow off excess oil or let drip for sufficient amount of time to avoid dripping onto meat products.

Safety:

Do not store with strong oxidizing agents. Keep out of reach of children.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Avoid water contamination and extreme temperatures to minimize product degradation. Do not store at temperatures above 120°F or in direct sunlight for extended periods of time. Keep container closed.
