

PACKERLUBE

TROLLEY OIL

DANGER

Causes eye irritation. May be fatal if swallowed and enters airways. Prevention: Wash face, hands and any exposed skin thoroughly after handling. **Response: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. **IF SWALLOWED:** Immediately call a poison center or

doctor. Do NOT induce vomiting.

Storage: Store locked up.

Disposal: Dispose of contents/container to an approved waste disposal plant.

Recommended First Aid: IF ON SKIN (or hair): Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing and shoes before reuse. Get medical attention if irritation develops and persists. **IF INHALED:** Remove to fresh air. Administer oxygen if breathing is difficult. Aspiration into lungs can produce severe lung damage. Call a physician immediately.

Packerlube is trolley and chain lubricant, effective in a variety of slaughter and processing environments. Packerlube is a blend of petroleum oils and special additives that provide low drip and excellent lubrication.

DIRECTIONS FOR USE: Float ¼-3 inches of Packerlube on top of hot water (160°F-180°F). Dip clean trolleys and hooks in product to completely cover them with oil. Blow off the excess with air and water to avoid dripping.

Additional Precautions: Avoid water contamination and extreme temperature to minimize product degradation. Keep from freezing. Do not store at temperatures above 120°F or in direct sunlight for extended periods of time.
