

TECHNICAL DATA

PACKERLUBE

Description:

Packerlube is a trolley and chain lubricant, effective in a variety of slaughter and processing environments. Packerlube is a blend of petroleum oils and special additives that provide low drip and excellent lubrication.

Physical Properties:

Appearance – Clear viscous liquid

Odor – Odorless

pH – NAP

Flash point - Open cup: 177°C (351°F)

Pour point - 10°F (-12°C)

Density – 7.09 pounds per gallon

Directions for Use:

Float ¼-3 inches of oil on top of hot water (160°F-180°F). Dip clean trolleys and hooks in oil to completely cover them with oil. Blow off excess oil with air and water to avoid dripping.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

Do not store with strong oxidizing agents. Keep out of reach of children.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Avoid water contamination and extreme temperatures to minimize product degradation. Do not store at temperatures above 120°F or in direct sunlight for extended periods of time. Keep container closed.
