

# **ZEE DRAIN GEL**

## **Cleaning Product**

### **DESCRIPTION**

The product is a iodine drain gel powder with non-ionic surfactants and blocking agents. The product is suitable for deodorizing inside of drains on drain gates and underneath open weave floor mats. It may also be used to deodorize condensate water and any other standing water in food plants or other facilities. It is adequate for the control of most odors that occur from condensate and standing water.

### **DIRECTIONS FOR USE**

The use instructions differ based on application and system. For accurate use instructions, contact your Zee Company representative.
