

# FB-1405

## HIGH FOAMING ACID CLEANER

### DANGER

**Toxic if inhaled. Causes severe skin burns and eye damage. Prevention:** Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Use only outdoors or in well-ventilated area. Do not breathe dusts or mists.

FB-1405 is a medium to heavy-duty, phosphoric acid based liquid detergent formulated for removing inorganic soils typically found in food processing plants. FB-1405 contains a blend of phosphoric acid, wetting agents, and rinse agents. The high foaming formulation penetrates and removes tough inorganic soils, such as soap scum, calcium scale, and other hard water precipitates. FB-1405 may be used in foaming units on equipment in all departments of dairy, meat, poultry, and general food processing plants.

**Response:** Specific treatment (see Section 4 on SDS). Immediately call a poison center or doctor. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor. **IF ON SKIN (or hair):** Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center or doctor. **IF SWALLOWED:** Rinse mouth. DO NOT induce vomiting.

**Storage:** Store in a well-ventilated place. Keep container tightly closed. Store locked up. **Disposal:** Dispose of contents/container to an approved waste disposal plant.

**DIRECTIONS FOR USE:** Rinse area to be cleaned with water to remove gross soil. Use 2-8 ounces of FB-1405 per gallon of water. Spray from foaming device and let stand. Rinse with clean water. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Read SDS before using this product.
