Antimicrobial

SAFE FOODS™
CHEMICAL INNOVATIONS

Assist is a flexible acidified sodium sulfate antimicrobial approved for use on poultry, meat, and produce. Assist can be used in a variety of applications in order to reduce harmful pathogens. When combined with the Safe Foods Entro delivery module and the MARC System, the concentration of Assist can be monitored and adjusted in real-time, ensuring optimum antimicrobial performance.

KEY BENEFITS

- > Approved by FDA, USDA, Health Canada and others
- > Track water and chemical usage
- > Simple to use
- > Designed with worker safety in mind
